

Worship Ministry Charter

(Updated 05/2017)

Core Values

Spirit-led creative worship that leads worshipers to encounter God.
Diversity of Styles while Unity of Focus
High Standards for Worship Presentation

Purpose

The Worship Ministry Team strives to design Spirit-led, creative worship in a variety of styles (contemplative, traditional & contemporary). While we strive for the highest standards of Worship presentation, we recognize that the overarching priority is to listen to the Spirit's guidance so that worshipers encounter the Living God.

The Worship Ministry Team consists of both staff (particularly Pastors and Worship Director) and volunteers who represent the different worship styles. Other groups that operate under the Worship Team include, ushers, tech team (shared with Communications Director - sound, projection, lighting, video recording), Early Light music ensemble, choir, Intersections Music Team, bell choir, floral ministry, and Emergency Response Team.

Responsibilities

The Worship Ministry Team is responsible for all aspects of worship, except those reserved for the pastor in our Book of Order. This includes preparing elements for sacraments, providing for all that is necessary within the facility (furnishings, lighting, tech requirements, etc.) This also involves the recruitment and training of volunteers to participate in worship and/or worship support tasks.
